## Candle

Etsy

Despite being a water sign, Cancers can always appreciate the calming effect of candles around their homes. Not only does this homemade soy candle say "Cancer" on it, but it is also made with herbs and fragrances specifically designed with Cancers in mind, such as lavender, chamomile, and ylang-ylang. These fragrances are known to be calming and relaxing, with ylang-ylang specifically driving anxieties away. This is perfect for a Cancer who might be feeling insecure or needs to quiet their range of emotions to maintain peace. It also includes small amethyst and citrine crystals. Amethyst, like chamomile, encourages calm, while citrine brings prosperity.
